Highlights

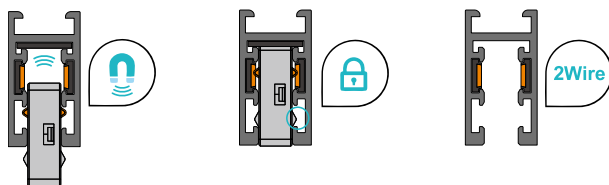

The TechoLED NANO Track System is the world's smallest track, with an aperture of just 0.2". The track has virtually unlimited capability to create shapes and patterns. It can be installed surface-mounted, mud-in recessed, and projecting. Light components, ranging from solid lensed and louvered to spots and cylinders, snap in and out magnetically by hand, without tools. It is the ultimate minimalistic lighting solution for any modern interior.

LED: Bridgelux LED Chips, 2700-5000K, 90+ CRI

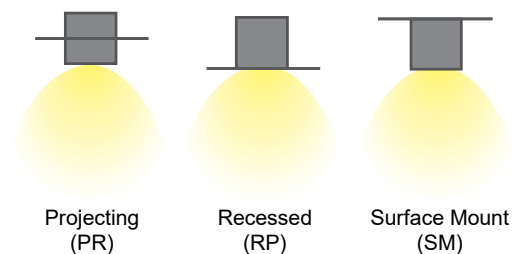

Optical: Direct illumination, multiple beam angles available on all louvered and spot modules.

Construction: High-grade aluminum extrusions, 24V remote driver, powder coat finish, continuous linear runs, X, T, L as well as wall-to-ceiling and inner/outer corners available for virtually unlimited patterns
